

POLICE RADIOS

Hear the News while it happens with a *Regency* ACTION RADIO

You'll always be in on the action with a Regency scanner radio. It utilizes the most advanced solid state technique for listening to the exciting signals of police, fire, weather or marine broadcasts. It searches for signals, then locks onto one until the call is completed, and then resumes its searching for another. Now you can have this exciting receiver complete with as many crystals as you wish, and you choose the stations you'll hear. A&W can outfit you with ready-to-play radios or install new crystal sets into an old radio, with as much versatility as you desire.

See Page 6 for Crystals

Act-E 8H/L

EXECUTIVE MODEL WITH TWO-BAND RECEIVING

Automatic tri-speed monitoring gives you a choice of many frequency combinations in High and Low VHF bands. Push-button control in a vinyl-clad cabinet in walnut-grain, with built-in speaker and detachable combination antenna. 10"x4"x8 1/2". 6 1/2" lb.

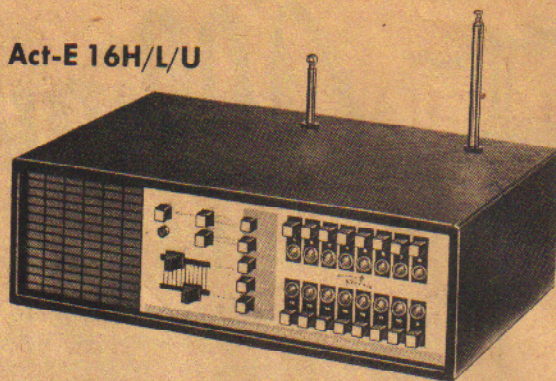

Act-E 8H/L..... DDZOB ... \$159.95
Crystals.....each \$5.95

EIGHT CHANNEL SCANNING OF VHF LOW BAND

This Regency first makes push-button scanning easy... no special tuning required for reception of eight channels. Wide frequency separation in 30-50 MHz range. Cabinet is vinyl-clad walnut-grain with speaker, antennas. 10"x4"x8 1/2". 6 1/2" lb.

Act-E 8L..... DYTOb ... \$139.00
Crystals.....each \$5.95

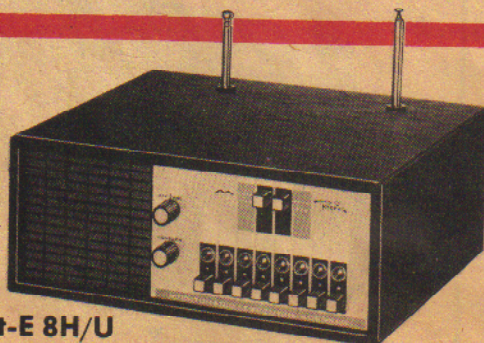

Act-E 16H/L/U

SIXTEEN CHANNEL MONITORING ON THREE EXCITING BANDS

With the Monitoradio/Executive Scanner you'll never miss a thing... with a VHF choice of 16 channels in High, VHF Low and UHF. Programs single channels or switch to automatic scanning with push-button speed. Tri-speed scanning technique searches the channels you want to hear -- eliminates signal sampling of channels you "program out." Slide controls adjust volume and background noise squelch. Vinyl-clad cabinet is walnut-grain with built-in speaker and detachable telescopic antennas. 13"x4"x8 1/2". 8 1/2" lb.

Act-E 16H/L/ U..... XDETOb ... \$219.00
Crystals.....\$5.95 each

Act-E 8H/U

SOPHISTICATED RADIO WITH TWO BANDS IN ONE

Customize your choice of channel frequencies in either UHF or High VHF with push-button controlling. The monitoring capabilities of two separate receivers are combined in one, for either manual or automatic scanning of eight channels. This sophisticated solid state circuitry is housed in a handsome vinyl-clad cabinet of walnut-grain, with built-in speaker and detachable, telescopic antennas. 10"x4"x8 1/2". 6 1/2" lb.

Act-E 8H/U..... XDOELB ... \$169.00
Crystals.....each \$5.95

TRI-SPEED RADIO WITH EIGHT CHANNELS

Monitor the news on eight exciting channels of High and Low Band VHF and UHF. Automatic scanning action for endless possibilities. Vinyl-clad cabinet is walnut-grain with built-in speaker and antennas. 10"x4"x8 1/2". 6 1/2" lb.
